female friends and made statements that caused the girls to think that he was contemplating suicide. This information is contained in DR# 97-23543.

On 09-12-97 at 1817 hours Anyata Francia located Andrew near her residence at 5140 E. New River Rd. In Cave Creek. He was lying on his back alongside his dog and a rifle/shotgun combination gun. Andrew had been deceased for several hours apparently due to a gunshot to the head. a handwritten suicide note was found at the scene.

**Friday 12 September 1997 1845 hours**

I received a telephone call from Detective Sergeant R. Quinton #389 instructing me to respond to 5140 E. New River Rd. Reference a Suicide. Sgt. Quinton advised me that the victim had been identified as Andrew Libby. I recognized the name as that of a subject that had been reported earlier in the day as a runaway juvenile. I also recognized the address as a possible destination listed in the runaway report. (DR# 97-23543)

**1923 hours**

I arrived at the scene along with Sgt. Quinton. The temperature was approximately 90 degrees. The humidity was high.

I contacted Sgt. F. McCann #967 who advised me that the victim had been discovered and identified by Anyata Francia at about 1817 hours. Deputy B. McNevins #997 responded and secured the scene. Sgt. McCann led me to a wooden bench that was approximately 30 feet from the southwest corner of the house. Written in black ink was the following:

"Love you always will  
Will return for you !  
*Andy Libby*  
Andy Libby"

This message was photographed by Sgt. Quinton. Sgt. McCann then led me to a small clearing in the desert vegetation surrounding the house. This clearing was approximately 200 feet from the southwest corner of the residence. The clearing was marked on the north and west by yellow Sheriff's banner tape. I met with Deputy H. Bryant #1074 who advised me that Dep. McNevins was the only Deputy to have entered the scene up to this time.

**1938 hours**

I entered the scene. The area was a small clearing approximately 17 feet by 12 feet. The ground was hard packed dirt covered by small rocks and gravel. Various types of desert vegetation surrounded the clearing. No footprints were visible

I observed a white male subject lying on his back with the feet towards the west and the head towards the east. A small brown dog was lying next to the body. I observed a double barreled weapon lying to the north of the body with the muzzle pointed towards the body. A 3 foot long tree limb approximately ½" in diameter was lying across the top of the weapon. The head was bent towards the right shoulder. A small dried bloodstain was on the dirt below the head towards the north of the body. The left arm was bent across the body. a metal watch was on the left wrist. The right arm was bent away

from the body with the forearm resting on the ground. A chrome colored chain that appeared to be a dog's "choke chain" type collar was twisted between the right hand and right wrist. The right hand was clenched in a fist with the thumb extended between the second and third fingers. Both legs were straight with outsides of the ankles resting against the ground. The subject appeared to be approximately 6'3 - 180 pounds with brown hair. The subject was wearing red/white high top tennis shoes, dirty white socks, dirty blue jeans with blood stains on the inner right portion of the knee and on the left thigh just above the knee, white underwear with a blue and yellow stripe and a dark red colored shirt that appeared to be a pajama top. Dried blood was present in both nostrils and the mouth. The area surrounding the right eye was very swollen and was black and blue in color. Upon seeing the face I recognized this subject as the same person reported as a runaway juvenile named Andrew Libby.

Photographs of the scene were taken by Sgt. Quinton.

I took measurements of the scene and completed a sketch of the area.

Upon examination of the weapon I found it to be a break action Stevens Model .22-.410 over/under rifle shotgun combination with a single trigger and a selector switch. The top barrel of the weapon is chambered for .22 caliber long rifle ammunition. The lower barrel is chambered for .410 gauge shotgun ammunition. The weapon was coated in many areas by a heavy coat of rust. I was unable to locate a serial number for the weapon. The name Fran W was scratched onto the bottom of the plastic forend near the receiver. When I opened the action I found an expended .22 long rifle case with a headstamp marking of the letter "U" in the upper barrel. The lower barrel was not loaded. Both barrels were extremely dirty and looked as though they had not been cleaned recently. I found no evidence of blowback in either barrel.

Upon examination of the body I found it to be cool to the touch. Lividity was present. I found 3 - 2 packs of Vicks Dayquil cold medicine in the front left pocket of Andrew's jeans. In the front right pocket I found a BiC ball point pen (medium point black ink).

The hair at the back of the head was matted and blood soaked. I was able to find a small hole at the back of the head centered between the ears. I could not find any signs of scorching or tattooing. I was not able to determine if this hole was an entry or exit wound. I found no signs of a fracture to the skull.

I found no other signs of trauma to the body.

**2040 hours**

I spoke with Anyata Francia. She said that she had talked with Andrew the night before. She could not recall the exact time. She said that Andrew had told her that he was in pain and that he wanted to sleep forever. He told her that he had a Beretta handgun. Anyata thought that he was thinking about taking his life.

Anyata said that she and her mother came home at about 1800 hours. Anyata said that she went for a walk around her residence. She thought that Andrew might be in the area because he had come over the last time that he had run away. Anyata said that she saw Andrew's dog and began walking towards it. When she was about 5 ½ feet away from Andrew's body she saw him and could tell that he was dead. Anyata then went to the house and told her mother, who called the police.

2105 hours

Vinny Como and John Luke from the Maricopa County Medical Examiner's Office arrived. Andrew was placed into a body bag which I sealed with seal number 2111. At 2115 hours Como and Luke took possession of the body.

A red tag for Andrew Libby was completed by Sgt. Quinton.

2159 hours

Sgt. Quinton and I arrived at the Libby residence in order to make notification to the family. Present at the home were Lincoln, Fran and Lance Libby.

Fran said that she noticed that Andrew was missing on Friday morning at 0600 hours. Also missing was his dog, his red backpack, a piece of pottery that resembled a foot and his Walkman radio. Fran said that about one week ago she found a .22 caliber bullet in Andrew's pants pocket. He told her that he had found the bullet. Fran said that Andrew never had friends, but nobody disliked him. Fran said that Andrew came from a troubled home and had been living with her and Lincoln for approximately 4 years.

I asked Fran to check and see if she was missing any firearms from the house. She looked in the hallway closet and said that a weapon matching the description of the weapon found with Andrew was missing. She said that the weapon belonged to her and that it had not been fired in the last 30 years. Fran showed me the .22 ammunition that she had in the house. The headstamps of this ammunition did not match the headstamp of the expended round recovered at the scene.

None of the Libby's suspected that Andrew had been contemplating suicide.

2300 hours

I telephoned OIC and had Andrew removed from NCIC as a runaway.

Saturday 13 September 1997 1032

I was phoned by Detective Sergeant J. Bushong and told to respond to the Office of the Medical Examiner in reference to the autopsy of Andrew Libby.

1120 hours

I arrived at the MEM's office and met with Sgt. Bushong and Dr. Bucholtz. They advised me that the wound to the back of Andrew's head was an entry wound.

1217 hours

Dr. Bucholtz began the autopsy.

Crime Lab Analyst S. M. Meisner #A280 was also present. She took photographs of the body and took blood evidence.

A small caliber exit wound was found in the front of the skull between the eyes. A projectile fragment was found in

the forehead tissue. Another bullet fragment was recovered from behind the right eyeball.

Dr. Buchholtz said that the projectiles trajectory was from back to front, nearly horizontal with a slightly upward angle, there was not much left to right deviation.

I took possession of the following items:  
    fingernail clippings and scrapings  
    a blood sample  
    the recovered bullet fragments  
    the metal chain that had been around Libby's wrist  
    Libby's clothing

these items were placed into evidence.

**1630 hours**

I returned to 5140 E. New River Rd. Along with S. Meisner. She photographed the area. While checking the wash area just west of where Andrew had been discovered a rifle scabbard, a flashlight and a personal stereo player were found. These items were collected as evidence.

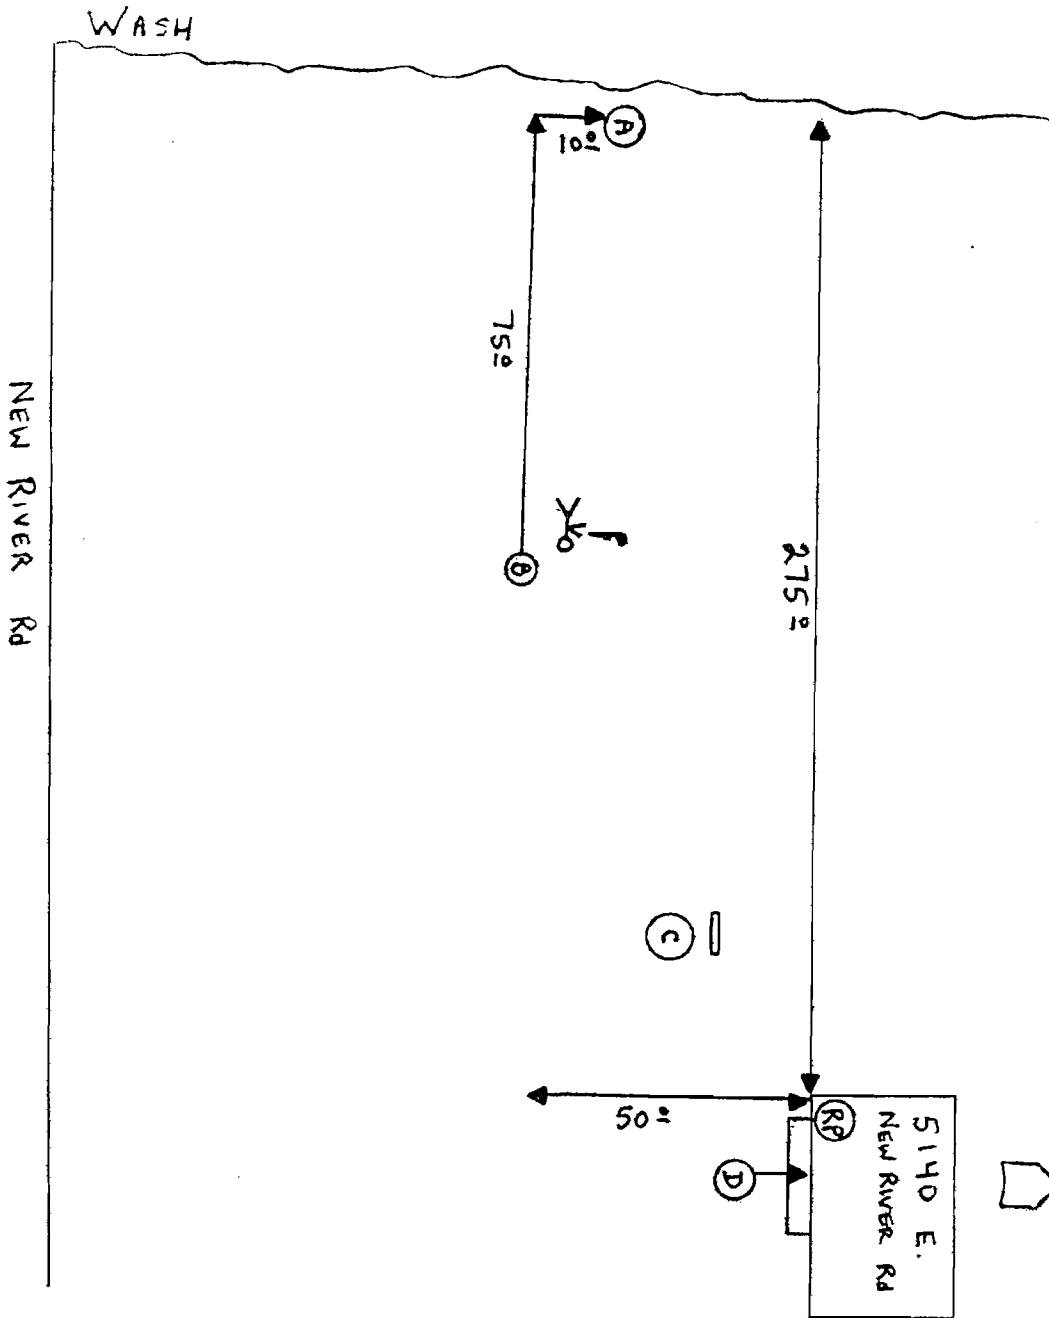

I spoke to Lori Francia about the message that had been written on the bench. She said that she had removed the message because she did not want Anyata to read it.

**Monday 15 September 1735 hours**

Lori Francia advised me that she had found a .22 caliber bullet on the doorstep of the rear door to her daughter's room. Lori felt that this had been left there by Andrew. I took possession of the bullet, which appeared to be of the same manufacture as the expended round found in Andrew's weapon.

Supplemental Report

Occurrence Date: SEPTEMBER 13, 1997  
Occurrence Location: MEDICAL EXAMINER'S OFFICE  
Occurrence Type: SUICIDE

DR#: 97-23608

Victim: ANDREW LIBBY

-----

At 1030 hrs., on 9-13-97, I responded to MEM reference an autopsy on a possible suicide. Upon arrival, I met with Det. Swingle #1059 and Det. Powers #786. DR. Bucholtz conducted the autopsy. The victim was already on the autopsy table at the time that I arrived.

I took photographs of the victim, red tag on victim's ankle labeled 97-2506 Andrew Libby, back of victim's head near the hairline showing hole. The hair had already been shaved from this area. The front of victim's forehead showed a bump of what might appear to be the projectile. X-rays, retrieved projectile, and trajectory rod showing path of projectile, and area where projectile was found were also photographed.

Det. Allmon #1036 brought the weapon, a Stevens 22-410, into the autopsy room. Swabs, #100 through #104, were taken of both barrels of the weapon. (See Property Invoice). DR. Bucholtz showed positioning of the barrel of the weapon against the back of the head where the entrance wound was located and the arms and hands behind of the back with the hands on the trigger area. Photographs were taken of this and also the end of the barrel near the wound.

Det. Swingle took possession of all the evidence, except for the swabs which were retained by myself.

Upon completion of the autopsy, Detectives and I then responded to 5140 E. New River Road. Photographs were taken of the area where the body had been found, and the bench northeast of the area which originally had writing on it but was no longer on the bench. A short distance west of this area near a wash area underneath Palo Verde trees, the following items were found:

- brown rifle scabbard
- "Ever Ready" orange lantern
- "Koss" AM/FM cassette player, model PP111

Several areas underneath the trees appeared to have some type of disturbance and dog paw prints were noted.
